📍 Mirpur 2, Dhaka

TECHNICAL SKILLS

- Python
- Flutter, Dart
- Algorithms & Problem Solving
- REST API, FastAPI
- Firebase
- Machine Learning
- AI/LLM Integration
- Git & GitHub

Soft Skill

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

Education Background

- Bachelor of Science in Computer Science & Engineering (B.Sc. in CSE)
Daffodil International University
Graduated: 2026
- Higher Secondary Certificate (Science)
Ahsanullah College, Khulna
Passing Year: 2021
- Secondary School Certificate (Science)
Kalaran Chandipur Adarsha High School
Passing Year: 2019

About Me

Recent Computer Science and Engineering graduate with hands-on experience in software and mobile application development using Flutter and Dart. Skilled in programming, REST API integration, Firebase, databases, and AI/ML integration.

Experienced in developing practical applications, implementing intelligent features, and working with modern development tools and technologies. Seeking a Software Engineering Internship opportunity to contribute to real-world projects and further develop software engineering skills.

PROJECTS

JobOrbitBD: AI-Powered Job Marketplace

Technologies: Flutter, Dart, Python, FastAPI, REST API, Firebase, Machine Learning

- Developed a mobile job marketplace application using Flutter and Dart.
- Implemented AI, ML-based job matching to identify relevant job opportunities based on candidate skills and job requirements.
- Integrated REST APIs for communication between the mobile application and backend services.
- Integrated AI, LLM based features to support intelligent job search and career-related functionalities.
- Worked with Firebase, Firestore for authentication and data management.
- Designed and implemented responsive, user-friendly application interfaces.

RiceCare AI: Smart Rice Leaf Disease Detection

Technologies: Flutter, Machine Learning, Image Classification

- Developed a mobile application for AI-based rice leaf disease detection using image classification.
- Classified images into Bacterial Leaf Blight, Brown Spot, and Leaf Smut categories.
- Added an "Others" class to reject irrelevant images and improve prediction reliability.
- Designed an intuitive image submission workflow for instant disease prediction.

Extra Activities

- Clubs
- Volunteering
- Social Organizations

Languages

Bengali and English
